

# Alvarion BreezeNET B28 5.8 GHz Radio

**Save over \$200 per  
radio while  
supplies last!!**

The BreezeNET B is a family of wireless point-to-point bridging solutions that operate in the unlicensed 5GHz band and provide an efficient and highly secure solution for building-to-building connectivity and backhauling. It is a cost efficient alternative to expensive leased lines, providing an instant link for connecting remote local offices to headquarters, and isolated buildings on campuses and in industrial zones.

ISPs can leverage BreezeNET B as a powerful and cost-effective wireless link to backhaul their point-to-multipoint data to their Internet access network, avoiding the need for expensive, leased lines over wire line infrastructures.

**We have an overstock in our warehouse.  
While supplies last, each in-stock  
BreezeNET B28 5.8 GHz radio is just  
\$1,279.00\*.**

**You save over \$200!  
Supplies are limited, once they run out,  
this special pricing ends.**

\*This pricing is good only on radios currently in-stock in the Wireless Connections Warehouse.
